Journal of Molecular Catalysis, 58 (1990) 417 - 423

Subject Index of Volume 58

Acetylene
- hydration of, to acetaldehyde using $K[Ru^{III}(EDTA-H)Cl]2H_2O$, 299
- phenyl-; photo-enhanced catalysis of cyclotrimerization of, by Nb(V) chloride system, 143

Alcohols
- catalytic reduction of methylviologen by, using $K_4Nb_6O_{17}$-based photocatalysts in aqueous solution, 205
- hydrogenation of CO with homogeneous Ru catalysts: novel effect of phosphoric acid on ethanol synthesis, 289
- kinetics and mechanism of oxygenation of 2,4,6-tri-t-butylphenol in methanol catalyzed by macrocyclic Fe complex, 127
- kinetics of methanol homologation: behaviour of Co–phosphine–I catalysts, 27
  - behaviour of Co–phosphine–I catalysts plus other metals as co-catalysts, 43
- levulinic acid synthesis via regiospecific carbonylation of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system, 251
- mechanistic considerations in hydrocarbonylation of, catalyzed by Co–Ru–I complexes, 307
- unsaturated and primary: selective oxidation of, by $RuCl_3$/*N*-methylmorpholine *N*-oxide (NMO) system; kinetic study, 235
- unsaturated; selective preparation of, via catalytic Meerwein–Ponndorf reduction of unsaturated carbonyl compounds over metal dioxides, L5

Aldehyde
- biphasic transfer hydrogenation of, catalyzed by water-soluble phosphine complexes of Ru, Rh and Ir; organometallic catalysis in aqueous solutions, 151
- hydration of acetylene to acetaldehyde using $K[Ru^{III}(EDTA-H)Cl]2H_2O$, 299
- levulinic acid synthesis via regiospecific carbonylation of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system, 251

Alkanes
- activity for ethane hydrogenolysis and C gasification of highly-dispersed metallic Fe catalysts, 245
- role of surface hydrocarbon residues in conversion of, on Pt; kinetics of reactions catalyzed by metals, 185

Alkenes, Olefins
- copolymerization of ethylene and CO by Rh carbonyls, L9
- dimerization of ethylene catalyzed by β-diketonate complexes of Co and Ni, 171
- 1-hexene Rh-catalyzed hydroformylation at partial substrate conversion: influence of reaction parameters on chemoselectivity and regioselectivity, 75
- hydroformylation of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
  - effect of promoters, 345
- metathesis and isomerization of, with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1
- photocatalytic hydrogenation of cyclohexene through H_2O as source of H_2 by Pt/CdS/RuO_2 semiconductor particulate system catalyzed by $K[Ru(H-EDTA)Cl]2H_2O$, 323
- thermal decomposition of Zr tetra-Π-allyl and catalysis by the products, 95
- thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide

© Elsevier Sequoia/Printed in The Netherlands

system, 405
Ti-catalyzed cyclotrimerization of butadiene: $(C_6H_6)Ti^{II}(AlCl_4)_{2-x}$ (x = 1 - 3) systems, 53
Alkoxycarbonylation
highly regioselective, of allylbenzene catalyzed by Pd complexes; CO as building block for organic synthesis, 387
Aluminium
effects of pretreatment conditions on activity of Pt/Al_2O_3 catalyst for oxidation of di(n-propyl)sulphide, 363
Ti-catalyzed cyclotrimerization of butadiene: $(C_6H_6)Ti^{II}(AlCl_4)_{2-x}$ (x = 1 - 3) systems, 53
Aromatic compounds
CO as building block for organic synthesis: highly regioselective alkoxycarbonylation of allylbenzene catalyzed by Pd complexes, 387
gas phase hydrogenation of *o*-xylene over Pd catalysts, 107
hydroformylation of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
effect of promoters, 345
kinetics and mechanism of oxygenation of 2,4,6-tri-t-butylphenol in methanol catalyzed by macrocyclic Fe complex, 127
liquid phase hydrogenation of benzonitrile over Pt and Pt–Sn catalysts, 215
metathesis and isomerization of olefins with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1
oxidative dehydrogenation of ethylbenzene to styrene over C-based catalysts, 227
photo-enhanced catalysis of cyclotrimerization of phenylacetylene by Nb(V) chloride system, 143
Rh(II) carboxylate-catalyzed reactions of diazoesters: evidence for equilibrium between free carbene and metal–carbene complex, 21
Ascorbate
thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405
Autoreduction
highly dispersed Pt in TiO_2 obtained via, of precursor species, 115

Capillary polysulphone membranes
with entrapped whole cells: influence of cell loading and filler molecular weight on membrane mechanical and kinetic performance, 277
Carbene
Pd dichloride promoted formation of cyclohexylcarbene from 3,3-pentamethylenediazirine, L1
Rh(II) carboxylate-catalyzed reactions of diazoesters: evidence for equilibrium between free carbene and metal–carbene complex, 21
Carbon gasification
and ethane hydrogenolysis of highly-dispersed metallic Fe catalysts; activity for, 245
Carbon monoxide
as building block for organic synthesis: highly regioselective alkoxycarbonylation of allylbenzene catalyzed by Pd complexes, 387
and ethylene; copolymerization of, by Rh carbonyls, L9
hydrogenation of, with homogeneous Ru catalysts: novel effect of phosphoric acid on ethanol synthesis, 289
Carbonyl
copolymerization of ethylene and CO by Rh carbonyls, L9
metathesis and isomerization of olefins with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1
Ru carbonyl-catalyzed reduction of Schiff bases, 165
selective preparation of unsaturated alcohols via catalytic Meerwein–Ponndorf reduction of unsaturated carbonyl compounds over metal dioxides, L5
Carbonylation
regiospecific, of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system; levulinic acid synthesis via, 251

Carboxamides
Ru complex-catalyzed dehydration of, to nitriles in presence of urea derivatives, 87
Catalytic properties
effect of immobilization on, of ferredoxin–nitrite reductase from *Chlamydomonas reinhardtii*, 393
Cells
capillary polysulphone membranes with entrapped whole cells: influence of cell loading and filler molecular weight on membrane mechanical and kinetic performance, 277
Chlamydomonas reinhardtii
effect of immobilization on catalytic properties of ferrodoxin–nitrite reductase from, 393
Cobalt
kinetics of methanol homologation:
behaviour of Co–phosphine–I catalysts, 27
behaviour of Co–phosphine–I catalysts plus other metals as co-catalysts, 43
mechanistic considerations in hydrocarbonylation of alcohols catalyzed by Co–Ru–I complexes, 307
and Ni; dimerization of ethylene catalyzed by β-diketonate complexes of, 171
Copolymerization
of ethylene and CO by Rh carbonyls, L9
Cyclohexylcarbene
Pd dichloride promoted formation of, from 3,3-pentamethylenediazirine, L1
Cyclotrimerization
photo-enhanced catalysis of, of phenylacetylene by Nb(V) chloride system, 143
Ti-catalyzed, of butadiene: $(C_6H_6)Ti^{II}$-$(AlCl_4)_{2-x}$ (x = 1 - 3) systems, 53

Dehydration
Ru complex-catalyzed, of carboxamides to nitriles in presence of urea derivatives, 87
Dehydrogenase
comparison of kinetic behaviour of lactate dehydrogenase and cytosolic and mitochondrial malate dehydrogenase from guinea pig skeletal muscle, 269
Dehydrogenation
oxidative, of ethylbenzene to styrene over C-based catalysts, 227
Desulphurization reactions
catalytic, using triple bond dimolybdenum and ditungsten organometallic complexes, 355
Dimerization
of ethylene catalyzed by β-diketonate complexes of Co and Ni, 171

Epoxidation
thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405
Esters
Rh(II) carboxylate-catalyzed reactions of diazoesters: evidence for equilibrium between free carbene and metal–carbene complex, 21

Guinea pig skeletal muscle
comparision of kinetic behaviour of lactate dehydrogenase and cytosolic and mitochondrial malate dehydrogenase from, 269

Homologation
methanol, kinetics of:
behaviour of Co–phosphine–I catalysts, 27
behaviour of Co–phosphine–I catalysts plus other metals as co-catalysts, 43
Hydration
of acetylene to acetaldehyde using $K[Ru^{III}(EDTA—H)Cl]2H_2O$, 299
Hydrocarbonylation
mechanistic considerations in, of alcohols catalyzed by Co–Ru–I complexes, 307
Hydroformylation
1-hexene Rh-catalyzed, at partial substrate conversion: influence of reaction parameters on chemoselectivity and regioselectivity, 75
of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
effect of promoters, 345
Hydrogenation
biphasic transfer, of aldehydes catalyzed by water-soluble phosphine

complexes of Ru, Rh and Ir; organometallic catalysis in aqueous solutions, 151
of CO with homogeneous Ru catalysts: novel effect of phosphoric acid on ethanol synthesis, 289
gas phase, of *o*-xylene over Pd catalysts, 107
liquid phase, of benzonitrile over Pt and Pt–Sn catalysts, 215
photocatalytic, of cyclohexene through H_2O as source of H_2 by Pt/CdS/RuO_2 semiconductor particulate system catalyzed by K[Ru(H–EDTA)Cl]$2H_2O$, 323
Hydrogenolysis
ethane, and C gasification of highly-dispersed metallic Fe catalysts; activity for, 245
Hydrogen peroxide
thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405
Hydrolysis
phosphono- or phosphorofluoridate, catalyzed by transition metal ions; mechanism of, 373

Immobilization
effect of, on catalytic properties of ferredoxin–nitrite reductase from *Chlamydomonas reinhardtii*, 393
Iodine
kinetics of methanol homologation: behaviour of Co–phosphine–I catalysts, 27
behaviour of Co–phosphine–I catalysts plus other metals as co-catalysts, 43
mechanistic considerations in hydrocarbonylation of alcohols catalyzed by Co–Ru–I complexes, 307
Iridium
and Ru and Rh: biphasic transfer hydrogenation of aldehydes catalyzed by water-soluble phosphine complexes of; organometallic catalysis in aqueous solutions, 151
Iron
activity for ethane hydrogenolysis and C gasification of highly-dispersed metallic Fe catalysts, 245
effect of immobilization on catalytic properties of ferredoxin–nitrite reductase from *Chlamydomonas reinhardtii*, 393
kinetics and mechanism of oxygenation of 2,4,6-tri-t-butylphenol in methanol catalyzed by macrocyclic Fe complex, 127
Isomerization
and metathesis of olefins with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1

Levulinic acid synthesis
via regiospecific carbonylation of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system, 251

Meerwein–Ponndorf reduction
catalytic; selective preparation of unsaturated alcohols via, of unsaturated carbonyl compounds over metal dioxides, L5
Membranes
capillary polysulphone, with entrapped whole cells: influence of cell loading and filler molecular weight on membrane mechanical and kinetic performance, 277
Metathesis
and isomerization of olefins with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1
Methylviologen
catalytic reduction of, by alcohols using $K_4Nb_6O_{17}$-based photocatalysts in aqueous solution, 205
Molybdenum
catalytic desulphurization reactions using triple bond dimolybdenum and ditungsten organometallic complexes, 355
Muscle
guinea pig skeletal; comparison of kinetic behaviour of lactate dehydrogenase and cytosolic and mitochondrial malate dehydrogenase from, 269

Nickel
and Co; dimerization of ethylene

catalyzed by β-diketonate complexes of, 171
Niobium
catalytic reduction of methylviologen by alcohols using $K_4Nb_6O_{17}$-based photo-catalysts in aqueous solution, 205
photo-enhanced catalysis of cyclotrimerization of phenylacetylene by Nb(V) chloride system, 143
Nitriles
liquid phase hydrogenation of benzonitrile over Pt and Pt–Sn catalysts, 215
Ru complex-catalyzed dehydration of carboxamides to, in presence of urea derivatives, 87

Olefins: see Alkenes
Oxidation
dissolved oxygen; peroxidase inhibition by 3,4-didehydroreserpine and peroxidase promotion of, of reserpine, 379
effects of pretreatment conditions on activity of Pt/Al_2O_3 catalyst for, of di(n-propyl)sulphide, 363
selective, of unsaturated alcohols and primary alcohols by $RuCl_3$/*N*-methylmorpholine *N*-oxide (NMO) system: kinetic study, 235
thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405
water: highly efficient catalysts for; mononuclear bis(dimethylglyoximato) Ru(III) complexes with different appended axial groups, 199
Oxidative dehydrogenation
of ethylbenzene to styrene over C-based catalysts, 227
Oxygenation
kinetics and mechanism of, of 2,4,6-tri-t-butylphenol in methanol catalyzed by macrocyclic Fe complex, 127

Palladium
CO as building block for organic synthesis: highly regioselective alkoxycarbonylation of allylbenzene catalyzed by Pd complexes, 387
gas phase hydrogenation of *o*-xylene over Pd catalysts, 107
levulinic acid synthesis via regiospecific carbonylation of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system, 251
Pd dichloride promoted formation of cyclohexylcarbene from 3,3-pentamethylenediazirine, L1
Pentamethylenediazirine
3,3-; Pd dichloride promoted formation of cyclohexylcarbene from, L1
Peroxidase inhibition
by 3,4-didehydroreserpine and peroxidase promotion of dissolved oxygen oxidation of reserpine, 379
Phosphorus
hydroformylation of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
effect of promoters, 345
hydrogenation of CO with homogeneous Ru catalysts: novel effect of phosphoric acid on ethanol synthesis, 289
kinetics of methanol homologation: behaviour of Co–phosphine–I catalysts, 27
behaviour of Co–phosphine–I catalysts plus other metals as co-catalysts, 43
mechanism of phosphono- or phosphorofluoridate hydrolysis catalyzed by transition metal ions, 373
organometallic catalysis in aqueous solutions: biphasic transfer hydrogenation of aldehydes catalyzed by water-soluble phosphine complexes of Ru, Rh and Ir, 151
Photo-catalysts
$K_4Nb_6O_{17}$-based, in aqueous solution; catalytic reduction of methylviologen by alcohols using, 205
Photocatalytic hydrogenation
of cyclohexene through H_2O as source of H_2 by $Pt/CdS/RuO_2$ semiconductor particulate system catalyzed by $K[Ru(H—EDTA)Cl]2H_2O$, 323
Photo-enhanced catalysis
of cyclotrimerization of phenylacetylene by Nb(V) chloride system, 143

Platinum
effects of pretreatment conditions on activity of Pt/Al_2O_3 catalyst for oxidation of di(n-propyl)sulphide, 363
highly dispersed, in TiO_2 obtained via autoreduction of precursor species, 115
hydroformylation of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
effect of promoters, 345
liquid phase hydrogenation of benzonitrile over Pt and Pt–Sn catalysts, 215
photocatalytic hydrogenation of cyclohexene through H_2O as source of H_2 by $Pt/CdS/RuO_2$ semiconductor particulate system catalyzed by $K[Ru(H—EDTA)Cl]2H_2O$, 323
role of surface hydrocarbon residues in conversion of alkanes on: kinetics of reactions catalyzed by metals, 185
Potassium
catalytic reduction of methylviologen by alcohols using $K_4Nb_6O_{17}$-based photo-catalysts in aqueous solution, 205
hydration of acetylene to acetaldehyde using $K[Ru^{III}(EDTA—H)Cl]2H_2O$, 299
photocatalytic hydrogenation of cyclohexene through H_2O as source of H_2 by $Pt/CdS/RuO_2$ semiconductor particulate system catalyzed by $K[Ru(H—EDTA)Cl]2H_2O$, 323

Reductase
ferredoxin–nitrite; effect of immobilization on catalytic properties of, from *Chlamydomonas reinhardtii*, 393
Reduction
auto-; highly dispersed Pt in TiO_2 obtained via, of precursor species, 115
catalytic Meerwein–Ponndorf; selective preparation of unsaturated alcohols via, of unsaturated carbonyl compounds over metal dioxides, L5
catalytic, of methylviologen by alcohols using $K_4Nb_6O_{17}$-based photocatalysts in aqueous solution, 205
Ru carbonyl-catalyzed, of Schiff bases, 165
Reserpine
peroxidase inhibition by 3,4-didehydroreserpine and peroxidase promotion of dissolved oxygen oxidation of, 379
Rhodium
copolymerization of ethylene and CO by Rh carbonyls, L9
1-hexene Rh-catalyzed hydroformylation at partial substrate conversion: influence of reaction parameters on chemoselectivity and regioselectivity, 75
Rh(II) carboxylate-catalyzed reactions of diazoesters: evidence for equilibrium between free carbene and metal–carbene complex, 21
and Ru and Ir: biphasic transfer hydrogenation of aldehydes catalyzed by water-soluble phosphine complexes of; organometallic catalysis in aqueous solutions, 151
Ruthenium
hydration of acetylene to acetaldehyde using $K[Ru^{III}(EDTA—H)Cl]2H_2O$, 299
hydrogenation of CO with homogeneous Ru catalysts: novel effect of phosphoric acid on ethanol synthesis, 289
mechanistic considerations in hydrocarbonylation of alcohols catalyzed by Co–Ru–I complexes, 307
mononuclear bis(dimethylglyoximato) Ru(III) complexes with different appended axial groups: highly efficient catalysts for water oxidation, 199
photocatalytic hydrogenation of cyclohexene through H_2O as source of H_2 by $Pt/CdS/RuO_2$ semiconductor particulate system catalyzed by $K[Ru(H—EDTA)Cl]2H_2O$, 323
and Rh and Ir: biphasic transfer hydrogenation of aldehydes catalyzed by water-soluble phosphine complexes of; organometallic catalysis in aqueous solutions, 151
Ru carbonyl-catalyzed reduction of Schiff bases, 165
Ru complex-catalyzed dehydration of carboxamides to nitriles in presence of urea derivatives, 87

selective oxidation of unsaturated alcohols and primary alcohols by $RuCl_3$/*N*-methylmorpholine *N*-oxide (NMO) system: kinetic study, 235
thermodynamics of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405

Schiff bases
Ru carbonyl-catalyzed reduction of, 165
Semiconductor particulate system
$Pt/CdS/RuO_2$; photocatalytic hydrogenation of cyclohexene through H_2O as source of H_2 by, catalyzed by K[Ru(H—EDTA)Cl]$2H_2O$, 323
Surface hydrocarbon residues
role of, in conversion of alkanes on Pt; kinetics of reactions catalyzed by metals, 185
Synthesis
ethanol: novel effect of phosphoric acid on; hydrogenation of CO with homogeneous Ru catalysts, 289
levulinic acid, via regiospecific carbonylation of methyl vinyl ketone or of its reaction products with HCl or alkanol or of mixture of acetone with formaldehyde precursor catalyzed by highly active Pd–HCl system, 251
organic: CO as building block for; highly regioselective alkoxycarbonylation of allylbenzene catalyzed by Pd complexes, 387

Thermal decomposition
of Zr tetra-Π-allyl and catalysis by the products, 95
Thermodynamics
of homogeneous oxidations: kinetics and thermodynamics of catalytic epoxidation of cyclohexene with Ru(III)–EDTA–ascorbate–hydrogen peroxide system, 405

Tin
hydroformylation of linear butenes with Pt/Sn/triphenylphosphine catalytic system, 331
effect of promoters, 345
liquid phase hydrogenation of benzonitrile over Pt and Pt–Sn catalysts, 215
Titanium
highly dispersed Pt in TiO_2 obtained via autoreduction of precursor species, 115
Ti-catalyzed cyclotrimerization of butadiene: $(C_6H_6)Ti^{II}(AlCl_4)_{2-x}$ (x = 1 - 3) systems, 53
Transition metal ions
mechanism of phosphono- or phosphorofluoridate hydrolysis catalyzed by, 373
Tungsten
catalytic desulphurization reactions using triple bond dimolybdenum and ditungsten organometallic complexes, 355
metathesis and isomerization of olefins with polystyrene-bonded cyclopentadienyl tungsten tricarbonyl complexes, 1

Urea derivatives
Ru complex-catalyzed dehydration of carboxamides to nitriles in presence of, 87

Vanadium
preparation and characterization of highly dispersed vanadium oxide catalysts supported on zirconia, L13

Zirconium
preparation and characterization of highly dispersed vanadium oxide catalysts supported on zirconia, L13
thermal decomposition of Zr tetra-Π-allyl and catalysis by the products, 95
